Deadline for application  
MAY 22, 2017

## FELLOWS

2016  
Dr. Rashmi Singla

2015  
Dr. Antonia Karamatskou  
Dr. Diana Monteiro

2014  
Dr. Amanda Steber

The renowned Professor Louise Johnson (University of Oxford), had an international role in advising on the exploitation of synchrotron radiation for biological research.

The Hamburg Centre for Ultrafast Imaging (CUI) calls for applications for the **Louise Johnson Fellowship**. The fellowship was initiated within the framework of CUI's equal opportunity program and offers a one year employment to a female postdoc (with an option for prolongation for a second year) to do research within one of the Louise Johnson research groups. The Fellowship has been set up in honor of the professor of Molecular Biophysics and pioneer of protein crystallography, Dame Louise Johnson.
