Northwestern University
USA

DR. ROSARIO GONZÁLEZ-FÉREZ
Universidad de Granada
Spain

Mildred Dresselhaus, Professor of Physics and Engineering at the Massachusetts Institute of Technology, was a clear role model and leader in promoting opportunities for women in science and engineering.

The MILDRED DRESSELHAUS GUEST PROFESSORSHIP PROGRAM

provides excellent research conditions for outstanding, international female researchers. It is aimed at successful senior scientists as well as younger researchers with high potential. The awardees are invited to perform research within the Cluster of Excellence „The Hamburg Centre for Ultrafast Imaging“ (CUI) for 2-6 months, to give lectures and to focus on a topic of their choice.
